People for India” is an organization that works for betterment of society and contributes for development of India.

PFI fosters youth to evolve as competent leaders under the guidance of experienced professionals and emerge as power to address backlogs.

PFI is committed to improve the quality of life and provide equal opportunity for all people based on human values.

**SURAJ PABBATHI**  
 FOUNDER AND PRESIDENT

PEOPLE FOR INDIA  
 Westborough, MA, USA

[peopleforindia@ymail.com](mailto:peopleforindia@ymail.com)

## Mission Statement

People for India is a nonprofit organization that works for the betterment of the society and contribute for the development of India.

Every one dies but only few leave foot prints, but let us build many who can leave foot prints.

The organization runs on four pillars.

- Service
- Prepare Youth for Society
- Imbibe values in people
- Support infrastructure

## MISSION EXPLAINED

### Service:

Stand to serve through many opportunities joining PFI or following PFI to support other three pillars. Small acts when multiplied by millions of people can transform the world. Small act would be to introduce Youth leadership to a school/college, Practice and teach a value, reward an infrastructural facility to the society or Teach your talent to raise funds for PFI.

We make future by what we give, be the reason to build a strong society and let us join together today to create a fabulous tomorrow.

### Prepare Youth for the Society:

PFI understands that the nation's growth is in the hands of leaders and youth. Leader is the one who influences, enlists the aid and support of people for the accomplishment of a common extra ordinary task. Youth is one of the, if not the most important factor in the leadership race. The nation with more youth is proved to develop more. If we can research potential the factors that can develop our nation and guide emerging leaders with the support of experienced professionals, we can flag our country as "Developed Country". "Everyone take birth and die, but a few leave foot prints. Let us shape the future of India to have many, who can leave foot prints. Agreed! That the task is big, but when big plans can be split up into small steps and take a step right away in the form of small projects, we will be there on some day. PFI achieves one of its missions through Youth Leadership Program.

## Imbibe values:

The revolution of our generation is discovery that, human beings by changing their inner attitudes of their mind can change outer aspects of life. Albert Einstein says “Try not to be a man of success but try to be a man of values”. People hand in hand with unity, with respect for each other, with attitude of selflessness, with self-disciplined to society, with a motive of social service.... when we walk together on ideals, then there will be true progress of the nation. PFI has devised methods for good practice of values by the people and for the people.

## Support Infrastructure

Infrastructure builds the society, connects the people and is a sign of development. This shall help needy and help transform the society for the future. Without infrastructure we cannot fight hunger and instill values in people.

## Introducing PFI Team

**Suraj Pabbathi, Founder and President.**

After travelling through different countries, learning different traditions and cultures, wanted to do something for human kind, chosen to contribute towards Youth Leadership program and build society based on values.

*“Many of us take birth and die, but only few leave foot prints, let us build many who can leave foot prints.”*

**Aravind Garrepally, Central Secretary**

Very hard worker, dedicated and instrumental in building the foot print for PFI in India, helped to reach many schools and realized numerous projects.

PFI is very lucky to have this person.

**Lakshmi Narayana Ragipindi, Secretary**

A man with kind heart, stands in front with kind donations and key person in building PFI MindTree Math club, a fundraiser for helping the schools and villages in India.

**Manohar Jakkula, Math Teacher**

A beautiful mind, intelligent and

Traditional person who believes in contributing to People For India as it addresses at the foundation level. Dedicated and friendly teacher helping the students understand Math and raise funds for the projects of PFI.

**Shiva Pabbathi, Math Teacher**

Youngest of PFI Family, budding teacher wanted to help people of India and at the same imparting education in math @ USA to aspiring kids.

**Madhavi Lata Vemula,**

Lead With Values, Manager.

Instrumental in adding the life to words, helping the emotions to reach people and kindle the spirit in hearts for contributing towards building a good society based on values with true leadership.

**Pravan Avuladoddi,**

PFI Spark associate

Kind at heart, Sensible and results oriented. He is resourceful and capable of doing many things to work. He is a selfless team player.

**Hima Bindu Pabbathi**

Piano Teacher  
Fundraiser, USA

A software engineer by profession working five days a week. Needless to say, being a woman she is a home maker too. In spite of staying busy throughout the week. Mrs Pabbathi takes her valuable time out during the weekends in conducting piano classes in USA. She constantly inspires children by sharing her talent with them. She has been a great support since the inception of PFI.

Sunita Ramnani

Violin Teacher  
Fundraiser, USA

Shiva Chaklam

Procurement Manager, USA

Parvathi Rongali

Promotions Manager, USA

She is instrumental in promoting the organization to raise funds by introducing PFI to companies in USA.

## Ravi Devisetti

Liasion Officer  
Fundraiser, USA

Senior Executive Vice President, Experian (a consumer credit reporting agency that collects and aggregates information on over one billion people and businesses).

He is the Sponsor of Robotics Program for all schools in Telangana.

He created a medium where PFI can work and collaborate with other non-profits that has similar goals.

The organizations that we collaborate are

1. PURE
2. DNF NRI Khammam

## First Pillar - Service

Stand to serve through many opportunities joining PFI or following PFI to support other three pillars. Small acts when multiplied by millions of people can transform the world. Small act would be to introduce Youth leadership to a school/college, Practice and teach a value, reward an infrastructural facility to the society or Teach your talent to raise funds for PFI.

BEING OF SERVICE  
TO OTHERS IS  
WHAT BRINGS  
TRUE HAPPINESS

MARIE OSMOND

## Service Matrix

Following Matrix shows how our organization is evolved with roles, and each role is taken by different selfless individuals working for the success of the organization. The idea of this matrix is to give the opportunity for the people to serve the human community by accepting the role and work for achieving the goal of the individual roles. Also one can see some of the individuals are overloaded, when new people come forward we can relieve the overloaded individuals based on the availability of the role upon mutual acceptance.

## Swar Music Academy – The Fund Raiser in USA

Swar Music Academy, started by PFI Founder Suraj Pabbathi. Although the purpose of its existence is to support PFI activities, it has been successful in providing quality education in music to many music lovers.

Since its inception in 2010, it has been stretching its support by raising funds for most of the projects undertaken by PFI. The selfless karma raising the funds through music is pure and for selfless deeds is purest.

The organization has till date provided training in playing various instruments including Guitar, Piano and Violin to around 50 students with an age range of 6 - 50.

We thank the contributors who also joined our music program to raise funds.

- Suraj Pabbathi, Guitar Teacher
- Sunita Ramnani, Violin Teacher
- Swant Upadhyay, Guitar Teacher
- Shiva Pabbathi, Clarinet and Guitar Teacher.
- Hima Bindu Pabbathi, Piano Teacher.

*Hima Bindu Pabbathi, Piano Teacher*

Music is divine and the soul that can be heard by universe. Where words fail, music speaks. All the families associated with Swar learning music feel the same and continuing their passion, expressing their spirit through performances.

They learn Western, Bollywood, Carnatic music and patriotic music.

Suraj Pabbathi teaching guitar to Bhuvan Rongali and Nikhita Ravi.

Suraj Pabbathi teaching guitar to Alish and Prisha Konduru.

Sunita Ramnani teaching violin to Ansh and Prapti.

## Math Club – Fund Raiser

### USA

Math Club, also started by Suraj Pabbathi, the founder of PFI, is yet another fund raising program that started in the year 2015. The team conducts classes to the students aspiring success in various competitive exams. It has been constantly rising over the period and all the funds raised by the Math Club have been utilized for developing infrastructure of villages in India.

The program is so inspiring that it has encouraged a kid as young as 14, name Siva Pabbathi, in stepping forward and taking responsibility to be a part of the teaching panel. We applaud Siva for the interest he has shown in extending his knowledge to his fellow kids.

*Shiva Pabbathi, Math Teacher*

Let's hope he continues to stay inspired and inspire others!

The most important thing we can do is inspire young minds and advance the kind of science, math and technology education that will help youngsters take us to another revolution.

We understand the dedication of the teachers and their contribution, that shall be remembered as a kind deed for the human society helping in India.

Funds raised are utilized for conducting Youth Leadership Program and donating infrastructure for various schools in India.

They inspire and state that our inner strengths, experiences and truths cannot be lost, destroyed, or taken away. Every person has an inborn worth and can contribute to the human community. We all can treat one another with dignity and respect, provide opportunities to grow towards our fullest lives and help one another discover and develop our unique gifts. We each of us deserve this and we all can extend it to others.

*Lakshmi Narayana Ragipindi, Admin and Math Teacher*

Season 2 Students learning Math in USA

Shiva Pabbathi – 14 years old, teaching Math rising funds in USA

Season 4 Students learning Math in USA

## **Area meet at ZPHS Jalalpur, ZPHS Sadashivanagar and ZPHS Gidda**

*Individual commitment to a group effort – that is what makes a team work, a company work, a society work, a civilization work!!!*

PFI is supporting around 450 schools covering 16 areas. Each area is being represented by one individual called 'Area Chairman'. The area chairman takes accountability for all those schools that fall under the vicinity of that area.

### Area Chairman Portfolio:

Lead the area to oversee the execution of the PFI programs. He/she should not only be able to stand as a role model but also inspire the neighboring schools to actively plan and execute the projects suggested by PFI.

### Duties of Area Chairman:

- Host the quarterly gathering of guide teachers/headmasters of the schools in the area
- Spread the program 'Lead with Values' and elocution competitions
- Take details of how the classes are conducted in the area
- Give awards to guide teachers which are sponsored by PFI

One such quarterly area meet had been held at ZPHS Jalalpur which was led by MrNagarjuna. The program was a huge success with attendance of headmasters and guide teachers from the all the schools of that area. Discussions about the future projects and execution plans with associated rewards were made. The attendees were all quite enthusiastic and were looking forward to implementing the outlined programs at their respective schools.

PFI believes that the meetings are crucial because the participants realize their importance. Like a team leader, the area chairman can motivate the neighboring school head masters how their tasks contribute to the overall goal. When tasks and goals are clear, we gain interest and encouragement to work because we realize the importance of the actual purpose. PFI has always emphasized on the importance of quarterly meetings where issues and solutions can be addressed that affect the planning and productivity.

PFI looks forward for many such meetings to happen and wish all the schools the very best for all the future projects.

**Area meet at ZPHS Jalalpur:**

**Area meet at ZPHS Sadashivanagar:**

Area meet at ZPHS Gidda:

## Second Pillar – Youth Leadership Program

There are some important qualities that we need teach the young to inherit to take the pride of the society forward and there are many.

Patience	Proactive	Visionary	Corrupt free	Teamwork
Honesty	Making a difference	Responsibility	Self-discipline	Wisdom

### Statewide Elocution competitions

#### ENCOURAGE SPEAKER IN YOUTH A POWER OF CHANCE- Telangana and Andhra Pradesh

One of the important leadership qualities is how best you can address the public? This shall help the leader to communicate with large audience and be successful to bring in the change that is intended for. People elect their leaders who express themselves clearly and confidently, and are persuasive and comfortable communicating with a wide range of people.

We give variety of topics for the students, so they can do some homework, prepare for the speech. We have noticed the difference in every year, they are getting better and better. Sometimes it is surprising us how good they speak using good language, voice variety and able to enact with stories.

Event	# Schools/Colleges
Aug 2016 – Independence	34
Jan 2016 – Republic Day	45
Jan 2017 – Republic Day	90
Aug 2017 – Independence	180
Jan 2018 – Republic Day	190
Aug 2018 – Independence	300
Jan 2019 – Republic Day	450

Every year during Republic and Independence day, we conduct elocution competitions in school and colleges.

For the winners in the school competitions, we invite them to finals and conduct statewide elocution competition. Since its inception, PFI has conducted Statewide elocution competition 2 times across schools in Telangana/Andhra Pradesh and marching towards more to come.

PFI believes the purpose of freedom of speech is to allow a verbal outlet in the marketplace of ideas.

Leaders need communication skills to sell their ideas and could build the self-image by brushing up their speaking skills by delivering

- ✓ An inspiring Speech
- ✓ Entertaining Speech
- ✓ Quality debate
- ✓ Persuasive Speech

We have saved pictures of all the winners on our website using the link

<https://www.peopleforindia.org/elocution/>

We have conducted speech competitions in various schools / Colleges across Telangana and the grid shows our progress; Youth can be poor or rich; it does not matter, but attitude matters.

Some of the topics are

- a. Leave the earth clean for our next generations, it should be every one's responsibility
- b. Religion should show the direction but not make us blind
- c. India nutrition problem
- d. Artificial Intelligence is a benefit or hindrance to human?
- e. Effect of media on society
- f. How to eradicate corruption from your society
- g. If you believe in yourself anything is possible
- h. How to harness technology for Social Good
- i. We are all interconnected, one's action will affect others
- j. Follow a value you build society
- k. Fitness - Wake up with Determination to exercise, go to bed with Satisfaction
- l. Education is the powerful weapon where you can change the world
- m. Who will be successful? Rich or Poor?
- n. Life begins where fear ends

## Teach Your Talent Robotics By ZPHS Bibipet (Boys)

*With access and opportunity, kids from remote areas can really shine!*

It is not important to introduce a technology for youth to pick up but it is important to teach them what they are capable of? That is not only digesting a technology, but it is to impart the education to fellow students. We are all interconnected, one can influence other livings.

Children studying in remote areas, rarely get exposed to concepts like robotics or rockets. While the rest of the world lived on internet, these students had little or no access to even computers.

A story of Robotics – A practice introduced by PFI.

There are three people behind this initiative.

Suraj Pabbathi picked up this new technology from KHEL creativity club in USA. He joined his son Abhiram in the club and learn Robotics. Suraj found the potential of introducing this to Students of India, where once students when learn can impart this education to fellow students. Suraj trained Aravind over phone and skype videos.

Aravind Garrepally took interest learning EV3 Mindstorm Robotic set and expressed enthusiasm in training students in remote schools of Telangana. PFI donated a set to ZPHS Bibipet. Arundathi, a teacher from Bibipet selected few students who can not only learn but can also impart to fellow students. This is one of the way to prepare future leaders.

Our students (Telugu language) have given their first performance at ZPHS(G) Bibipet. And our E/M students gave at KGBV-Malkapur.

In a move to inculcate scientific temper among students and keep them abreast with the happenings

in the world of artificial intelligence, PFI is on a mission to introduce 'Robotics' to schools in rural areas. Thanks to Mr Aravind Garrepally, Vice president of PFI, with the help of whom PFI has facilitated the introduction of robotic education since 2016 and has successfully implemented the training in selected schools. Students of government schools from rural areas are now able to experience this technology and get hands on experience. This will help children develop their skills on

robotics and artificial intelligence from an early age.

ZPHS (Boys) Bibipet is one of the few schools to grab this opportunity via PFI. The students are overwhelmed to be trained in this field as this is a dream come true to them. Suraj has this vision while founding this organization in the year 2010 and his dream came true after 8 years. This a true achievement and success find its way to do more for the society.

The basic course curriculum included:

- Build a robot
- Download the pre-built program into robot
- Program the robot

The idea of introducing robotics at rural levels was so influencing that it not only inspired private firms in USA but also kids as young as 9 years old to donate robots for the benefit of the needy. PFI has promised to give away robots free of charge to the schools who are willing to take up the program as a part of their curriculum.

Impressed by the leadership exhibited by the students of ZPHS Bibipet, Ravi Devisetti, Senior Vice President of Experian is willing to sponsor this program through People For India. We thank from bottom of our heart for standing for the cause. His kind deed shall be remembered by future citizens of India. This exemplary support can bring in more leaders.

## Third Pillar – Practice Values through Lead With Values Program

### A school program where Attitude matters -- A better generation evolves...

This book contains syllabus that shall focus on teaching Leadership Qualities and inspire them narrating Stories of Great Leaders, Practice Values, Learn Public Speaking.

This book illustrates the program “Lead with Values” where it teaches Youth leadership program by covering the following

- Stories of Great Leaders
- Characters of a Leader
- Public speaking
- Practice Values

Also provides youth opportunities

- To think about the society
- Give back to society
- Do something for the society through outdoor activities
- To Raise Funds
- To listen to successful people in the society

We have introduced the syllabus in around 450 schools and these schools fall in

- Bhongir
- Bibinagar
- Choutuppal
- Chegunta
- Kalwakurthy
- Kodad
- Khammam
- Madgul
- Mahaboob Nagar
- MOTAKONDUR
- MOTHKUR
- M'T""HURKAPALLY
- NARAYANAPUR

- YADAGIRIGUTTA
- Wanaparathi
- Warangal

- Alair
- Athmakur
- B Ramaram
- Domakonda
- Hyderabad
- Kataram

**Good Citizen Values:** This shall teach the importance of being involved in our democracy and how to be effective citizens. “Ask not what your country can do for you; ask what you can do for your country”. Keeping a democracy strong requires the assistance of each of its citizens.

Some of you may like to be judges, teachers, law enforcement and military personnel to keep the country strong. There are many actions that can be defined to be a good citizen.

## LV Program – Diet and Hygiene Program in ZPHS Boys Kodad

As a part of Lead With Values program, pediatrician Srinivas Reddy was invited as a guest lecturer to explain the importance of healthy diet.

This activity is conducted under the banner People For India and Headmaster of the school has presided the activity. Days and years will pass by and time will not stop for need to find out what should we bring the changes. One possible change is to maintain healthy body. A healthy mind resides in healthy body is main essence of this program.

of  
us,

Food has Proteins, Carbohydrates, Fats, Minerals and Vitamins that should be well planned and consumed to maintain BMI, weight to height ratio. It is very important for us to have proteins because it shall help the growth until the age of 16 to 17 years. Vegetarians can find proteins in pulses and Non-Vegetarians can find from mutton and fish. It would be nice if we consume an egg a day. Carbohydrates is like fuel to the body without we will be unable to carry daily activities.

There are variety of Guest Lectures that can be given by various successful people

- Social workers, Sports Persons, Political Leaders, Bureaucrats like IAS, IPS Officers.
- Subject matter experts those may have completed Ph. D., Research Scientists.
- Entrepreneur like industrialists, businessmen.

Engage guest lectures in different disciplines not only restricting ourselves to Social activities. We need to encourage all round development in youth career.

There are 3 phases in conducting Guest Lecture:

1. Identify a Guest lecture:
2. Interview the Guest lecture
3. Engage the Guest lecture:

## Lead with Values at ZPHS Irwin

*Every student on the planet knows **what** they do, some know **how** they do it, but very few know **why** they do what they do!*

A student can be visualized as a future leader only when he/she knows what they value. They also recognize the importance of ethical behavior. The best leaders exhibit both their **core values** and their **ethics** in their **leadership style and actions**.

PFI has designed a book which illustrates the program 'Lead with Values' where it teaches youth leadership program by covering the following:

- Stories of great leaders
- Characters of a leader
- Public speaking
- Practice values

The book also provides youth opportunities such as:

- To think about the society
- Give back to society
- Do something for the society through outdoor activities
- To raise funds
- To listen to successful people in the society

One of the many schools that adopted this concept in the current year is **ZPHS Irwin**, Mahbubnagar, Madgul Mandal. The school management is quite pleased to have introduced the book to their students. They believe that the information given in the book will play a major role in transforming the students to become future leaders.

## Plastic Pollution – Skit and Rally by ZPHS Padmajiwadi

*Protecting our planet from plastic waste*

*Don't laminate the earth!*

Plastic in any form or of any quality is harmful to earth. Considering plastic lurks in every nook and corner of our lives, banishing it completely seems unrealistic and impractical. But we can start with more awareness about the little ways with which we can reduce our exposure to plastic.

PFI believes that education and knowledge are key to combat plastic pollution. Through the book 'Lead with Values', PFI is trying it's best to combat the issue of plastic hitches. PFI appeals to all the schools to come up with rallies/skits/lectures to spread awareness in this matter.

### Plastic Awareness Rally

As part of the 'Lead with Values' program, the students of ZPHS Padmajiwadi carried out an awareness rally to spread the message of the plastic ban. The students also carried placards with innovative slogans discouraging the use of plastic bags.

## **Plastic Awareness Skit**

To further reinforce the children's awareness of the harmful effects of the plastic bags to the environment, the children from ZPHS Padmajiwadi performed a skit to raise the awareness on how to reduce, reuse and recycle

plastic bags. Children obviously had fun performing the skit and the best part is that they truly understand that their actions ARE making a difference. The drama was concluded by shouting out powerful and catchy slogans.

You too can make a difference and dramatically help reduce the amount of plastic which ends up in our oceans and in our food supply by simply making a stand and trying to get your family off the dependency we all have to single-use plastic bags.

## Ekta Diwas Pledge at ZPHS ReddypetTanda

*Pledge on Rashtriya Ekta Diwas (National Unity Day) to foster and reinforce our dedication to preserve and strengthen unity, integrity and security of our nation on the Birth Anniversary of Sardar Vallabhbhai Patel*

On the occasion of 143<sup>rd</sup> birth anniversary of Sardar Vallabhbhai Patel, Rashtriya Ekta Diwas pledge was administered at ZPHS ReddypetTanda involving students from all the classes so that a message of national unity.

PFI strongly recommends that this be done every year at all the schools. Here are the glimpses of the Pledge Ceremony organized at the school premises.

## Eco-friendly Ganesh Awareness Program Conducted by ZPHS Jameelapet

*Celebrate Eco-friendly Ganesh Chaturthi and save earth*

*Ganpati BappaMorya!*

Inspired by the concepts introduced by PFI via 'Lead with Values' book, students of ZPHS Jameelapet made eco-friendly Ganesh. Enthusiasm among the students was such high that the entire atmosphere transformed into real old Indian Culture. Children made Ganesh idols from clay with devotion, passion and creativity. They also get themselves apprised of the ill effects of POP on environment and took pledge not to use POP in future. It has been proved time and again that the old rituals of Indian culture are environment friendly. Students were extremely excited to take the Ganesh idols prepared by them to their homes.

The school staff appreciated the workshop suggested by PFI and expressed such workshops should be organized every year. PFI feels that such kind of steps to protect environment is good and will also increase the creativity in the children.

## Fourth Pillar Infrastructure

PFI believes in donating infrastructure, and is one of the main pillar of the organization. There are many reasons for believing donation of the infrastructure is the best way in serving human kind

- as this lasts for generations
- does not go to any individual so it stays selfless and reaches many lives
- used by any giving equal opportunity for everyone,
  - that does not differentiate rich or poor,
  - does not differentiate between religions.
- shall stand as a symbol for development
- is not perishable
- donors shall be remembered every time it comes in use
- motivates the society to be social

Whenever there is a need or the request comes to PFI, we advertise to near and dear one's in USA to give them opportunity to serve human kind.

*“Without infrastructure we are not just social” -- Suraj Pabbathi*

Also PFI does not donate as the request comes, organization shall donate recognizing the services done by any school or club. Instead of donation it would be better to call it as a reward. When this comes as a reward, there is no way of abusing, rather the infrastructure shall be best used in the interest of the need. Every reward shall motivate the society do more and is contagious. Our promise, as long as any society or school or club does teach and practice the concepts of PFI, we are going to recognize the efforts by fulfilling a need. This is our commitment, our promise for life. However, practicing shall be recognized only after providing the evidences. Evidences can be proved by photographs and videos. Bigger the need bigger will be expectation of PFI for Infrastructure requests can be

## Infrastructure for digital classrooms

*Go digital – possibilities of what you can do are endless!*

The face of education is constantly changing and evolving. It is high time that we accept that the driving factors affecting the changes in education today is technology. Our students are a part of a new generation that is constantly connected and surrounded with technology, and so it only makes sense to fully incorporate technology into our teaching practices. It is essential that we need to create a learning environment that supports 21<sup>st</sup> century learning. The solution is pretty obvious: schools need to implement digital classrooms.

Well, Mr Govardhan Reddy, the Head Master of **ZPHS Uppalwai**, had a similar intention. The school has actively participated in various projects and activities proposed by PFI. Recognizing their efforts, PFI stood by them by means of providing the necessary funds and made the project a huge success. The students are now utilizing the modern technology quite efficiently.

Mr Govardhan Reddy is also the area chairman of Ramareddy. Not only has the school been following the pillars of PFI themselves but Mr Reddy has even been spreading it all through the neighboring schools in the area.

## Donation of classroom furniture

*Classroom furniture is no less than a teaching tool!*

ZPHS Ameenabad is a school located in Kodad area of Telangana. The school has recently built additional classrooms at their premises to accommodate the increasing number of students. The funds available were just enough to build the rooms. There was a need for a donor who can take the responsibility of furnishing the classrooms. PFI has hence volunteered to provide basic furniture including sturdy tables as the organization believes that a basic class is one which meets the students' most basic needs. PFI views a classroom as a place for students to learn, grow and explore. Try doing that without a table!

The school management is grateful to PFI for helping them to meet the fundamental standards a classroom deserves.

This request is obliged by Manohar Jakkula and his friends. They came forward in donating through PFI.

## Donation of Sound system

*A good mode of communication enhances the learning environment of students!*

Whether you need to address an assembly, utilize stage monitors, hold elocution competitions, or be heard on a sports day, your school must have a decent audio system which should be able to provide you with the functionality and flexibility to keep up with the demands of a busy school.

As with most schools in the current climate, money is very tight, and every rupee needs to be watched upon. ZPHS Ganapavaram is a school that was in a dire need of a good audio system. The school has always taken appropriate steps to create opportunities for their students not only in academics but also in arts where children can recognize and showcase their talents.

PFI understands that quality sound is vital in the education sector, whether it's for something as complex as a performing arts production or as simple as a class assembly. It is important that students who practice the arts and want to perform must be heard, right to the back of the room, for maximum impact and for their hard work to pay off.

Considering this, PFI has offered a free sound system including a microphone ensuring that the equipment does not stand as a hindrance in an overall development of a child.

## Donation of computer ZPHSGirls Bibipet

The students of ZPHS (Girls) Bibipet have worked well in implementing various concepts introduced by PFI. Recognizing their efforts, PFI has rewarded a computer to the school on 27<sup>th</sup> October 2018

We appreciate the couple, Mrs Parvathi Rongali and Mr Trinadh Rongali, for their contribution towards the reward given to the school. They are the residents of Hopkinton, Massachusetts, USA. Mrs Parvathi is a Data analyst and Mr Trinadh is a Lead

software engineer who look forward to extend their help impacting lives around. They are

generous to oblige. Parvathi, a software consultant in USA, is kind enough to take extra time in accepting the role Promotions Manager. In her role, she shall promote PFI for others to join, support every activity of the organization in reaching many places in India. Promotion also help the organization in rising funds so we can support and influence many lives in India.

We are glad that they have come forward with the contribution as they are pleased with the activities conducted by PFI and the impact it has been creating among the schools in remote areas.

- ✓ Swachh Bharat
- ✓ Corruption
- ✓ Girls Dropout
- ✓ Save Electricity
- ✓ Save Water
- ✓ Dream Roles

The school staff is very impressed by the aim of PFI and the path that the organization has chosen to fulfill it.

They said that usually the government schools get enough funds just to run the school and hence it is difficult for them to introduce extra activities and distribute prizes to the children. The staff and students could not thank PFI enough as the students are now getting many opportunities to participate in projects and activities earn prizes for themselves which is quite encouraging. PFI believes “Infrastructure is tomorrow’s most important technology”. We therefore assure to give them the best support they need.

The above photographs illustrate the Thank you speeches by students and teachers.

## Donation of cooking utensils at ZPHS boys Domakonda

These utensils can be used to prepare lunch for children as part of the project 'MadhyannaBhojanaPathakam'

Donor: HimaBindu Pabbathi, Software Engineer in USA

MrsHimaBindu Pabbathi is a software engineer by profession working five days a week. Needless to say, being a woman she is a home maker too. In spite of staying busy throughout the week Mrs Pabbathi takes her valuable time out during the weekends in conducting piano classes in USA. She constantly inspires children by sharing her talent with them. She has been a great support since the inception of PFI.

Mr santhosh Kumar has spoken a few words expressing his gratitude. On this occasion, he said that the concepts introduced through 'Lead with values' are very inspiring for the children. He feels that if these lessons are undertaken regularly it can boost the leadership values among the children. He further promised to take out time in educating the children about the importance of leadership values and putting them into practice. As a part of the lead with values program, school has conducted the following classes.

- ✓ Art of Public Speaking
- ✓ Avoid Corruption
- ✓ Stores of Great National leaders

Donation of cooking utensils at ZPHS boys Domakonda

### **Grant for electricity wiring at ZPHS Gidda, Ramareddy**

Government schools have limited financial resources with which to pursue their objectives and the design of school funding policies plays a key role in ensuring that resources are directed to where they can make the most difference. Even though the government does contribute a significant amount of money, most of the time the amount is enough only to run the school's day-to-day operations. Building a school is the starting point, after which the government has to take many more measures to ensure that children in remote areas also have access to decent educational infrastructure.

PFI analyses and supports the schools who are actively engaged in undertaking activities or projects that help build the overall development of a child. **ZPHS Gidda** is one such school who actively undertakes various projects for the benefit of its students. The school management had lately managed to add another building to its premises to make room for increasing student strength. Valuing their efforts, PFI came forward to provide sufficient funds to enable electricity to the newly constructed classrooms.

The school management was quite happy with the services of PFI and have assured to keep up the good work.

## **Donation of Printer/Copier/Scanner**

### **Telangana State Model School and Sri Krishnaveni Talent School**

To teachers and administrators, availability of a printer at the school premises is quite convenient and beneficial. Most of the Government schools have funds just to meet basic facilities. PFI is ready to look after those extra necessities that a school needs provided it assures to use the donated product in an efficient way.

Telangana Model School (Pochampally) and Sri Krishnaveni Talent School(Chegunta)are among the schools that have actively adopted many concepts and projects suggested by PFI. We are quite happy to reward the schools with a printer/copier/scanner to make their day-to-day activities easier.

One of the school teachers has expressed her gratitude for the support they are getting from PFI. She said that taking inspiration and guidance from PFI, their students have gained confidence in conducting various awareness programs. Children have also participated in various elocution competitions.

On this occasion, a student has come up to speak up a few words on behalf of the school. Her speech was quite effective and inspiring. She congratulated the PFI foundation as she felt that the students were quite motivated in moving forward to fulfill their dreams. She gives the credit to PFI for having brought up confidence, values and morals among the children. She was happy that they have also been rewarded for every activity they have been participating in.

**Activities prior to 2018**

# Fluoride Removal Project

Karthanaparthi Panchayat, Anantpur

PFI has set up a fluoride removal plant saving 5000 villagers, of Karthanaparthi, suffering from Fluorosis. The plant which was installed in 2014, was designed for removing fluoride content from water.

Cost of the Project: 2 Lakhs

PFI heard the message “There is poison in water” that can cause fluorosis, which is caused by excess ingestion of Fluoride, results in dental problems, deformities of limb bones.

PFI tirelessly worked towards set up of Fluoride removal project and giving the villagers safe drinking water, contributing to safer ‘n’ healthy society.

While PFI has contributed the major share in donating the funds, local people have raised few funds, and local family has donated the land for the cause.

The maintenance of the project is met by the nominal cost collected from selling purified water, so people also do not abuse.

The people who helped in achieving this project are

- Sreedhar Gopishetty, Central President, India Operations.
- Sandeep Veera Yadiki, Central VP, India Operations.
- Sivanna Kuruba, Sarpanch, Karthanaparthi.
- Aravind Garrepally, Central VP, India Operations.
- Eswar Kapadam, USA
- Suraj Pabbathi, USA.

# Rain Water Harvesting Project

## ZPHS, LB Nagar, Hyderabad

Rain water harvesting is a technique of collection and storage of rain water into tanks before it is lost as surface runoff. In 2016, PFI has successfully established one such project in Hyderabad inspiring many more to follow the same. The residents are now benefitting from the outcome of the project.

## Water Tank Donation

### ZPHS, Kodad

ZPHS Kodad is one of the most crowded schools in that area enlisting nearly 600 students. Water scarcity had become a challenge for them past few years. PFI noticed this situation of students and has immediately provided water tanks with the capacity of 2000 liters, along with water purifier. All the teaching staff, town elders and students praised this donation and saluted Suraj & team recognizing their work for society.

This initiative was taken to assist with mitigating the problem of water shortage. Thankfully, the students are left with one less thing to worry about!

## Free Medical Camp

Kondapur Village, Karimnagar District  
&  
Sangameswar Village

A team of young doctors who have taken the pledge to serve with humanity

Dr Anudeep from SSIMS & RC Davangere, Karnataka

Dr Satish from MNR Medical College, Sangareddy

Dr Harikrishna from Mamatha medical college, Khammam

Dr Venkateshwarlu from MBBS DCH Nilofer Hospital, Hyderabad

Youth conducted Free Medical camp in Kondapur and Sangameswar villages. Nearly 500 people got that service. The village people praised the work of PFI. The village sarpanch extended his special thanks for selecting their village.

The sarpanch said, "We have always supported their collaboration and request camp to be conducted every two or three months."

The villagers thanked the doctors and volunteers with whole heart.

## Save Environment - Avoid Plastic Rally

Rally by students of Sri Krishnaveni Talent School, Chegunta, Medak District  
&  
ZPHS, Sangameshwar

Environmental pollution is an incurable disease; it can only be prevented. Say NO to plastic.

On a mission to reduce the use of non-biodegradable plastic to a possible extent, more than 300 students have taken out a rally. They have spread this message by distributing cloth bags to the local residents encouraging them to avoid use of plastic as much as possible.

## Traffic Awareness Rally

### Rally by students of Sri Krishnaveni Talent School, Chegunta, Medak District

As a tribute to the brave policemen who lost their lives in the line of duty, PFI had organized a traffic awareness rally in which more than 300 students have participated to spread road safety measures. The students stepped out on roads holding road signs and placards with slogans on road safety to bring awareness in the local residents.

Hope & believe, this rally by PFI would impact many lives 'n' put them in the right path.

## Robotics Reaching Villages

### ZPHS, Kapugallu

Robotics is the future! PFI introduced Robotics in Hyderabad with robot donated by 9 years old kids (Tanish Koparde and Abhiram Pabbathi) from USA.

We walk in the path that leads to development. Time has come to bring awareness in Robotics to young unveiling the creativity.

Donation by these 9-year-old kids have made a huge difference to the under-privileged children. We hope this comes as an inspiration to many more kids.

## Cancer Awareness Program

### Sri Krishnaveni Talent School, Chegunta

Prevention is better than cure!

Many of us are unaware that cancers are curable if detected at an early stage. It is imperative that children be educated regarding cancer in order to prevent it or detect it at a pre-cancerous stage.

This has triggered PFI's efforts to raise awareness and promote early detection. PFI has organized a cancer awareness program in a hope to gradually eradicate this dreadful disease by bringing awareness in children at a very early stage.

The lecture was given by Sri Sudheer, coordinator from Cancer and Welfare Society, Hyderabad.

# Celebration of International Day for preservation of Ozone Layer

Elocution Competition held at ZPHS, Anantsagar

Caring for all life under the Sun. Let's heal Ozone together.

Deal today with ozone for a better tomorrow.

International Day for the Preservation of the Ozone Layer was celebrated by the students by expressing their views on the importance of the ozone layer.

Children have addressed their concern that deterioration of ozone layer may lead to increase the risk of skin cancer. They have voiced out various ways to preserve the ozone layer to avoid any unwelcoming risks.

## Independence Day Celebration

### Rally by students of Sri Krishnaveni Talent School, Chegunta

A rally was organized by the team of PFI in which the students were holding an elongated national flag measuring 500 meters in length. Our flag honors those who have fought to protect it, and is a reminder of the sacrifice of our nation's founders and heroes.

Sri Krishnaveni Talent School in Chegunta showcases their patriotism and inspires everyone to celebrate Independence Day.
